The course is designed satisfy OSHA's fire protection standard at 29 CFR 1910.157 for employees designated by their employer to use portable fire extinguishers in the workplace. Employees learn to select the right fire extinguisher and use it correctly.

FIRE EXTINGUISHER TRAINING

Protecting your employees in fire emergencies..

DURATION: CUSTOM

GOAL: INVOLVE EVERY EMPLOYEE IN A SMALL STEP TO PREVENTING OR CONTROLLING FIRES.

COURSE OVERVIEW

- LEARN HOW TO PLAN FOR WORKPLACE FIRE EMERGENCIES
- LEARN THE PRIMARY PURPOSES AND FUNCTION OF FIRE EXTINGUISHERS
- UNDERSTAND THE LIMITATIONS OF EXTINGUISHERS
- EXPLAIN THE CLASSIFICATION AND RATING SYSTEM FOR FIRE EXTINGUISHERS
- DEMONSTRATE PROPER OPERATIONAL TECHNIQUES IN USING FIRE EXTINGUISHERS

COURSE DESCRIPTION

OSHA mandates annual fire extinguisher training for all employees as per OSHA 29 CFR 1910.157(g). The rule requires employers to provide an educational program on the general principles of fire extinguisher use and the hazards of incipient stage firefighting. This program combines classroom and hands-on instruction.

After covering the fundamentals, trainees solidify their theoretical knowledge with hands-on practice using a live fire simulator. This practical experience is essential, as it involves seeing a fire, using an extinguisher, pulling the pin, and squeezing the trigger. Fire extinguishers are crucial safety tools, and proper training ensures their effective use.

Hands-on training engages trainees, builds confidence, and addresses overconfidence. By increasing knowledge, employees are better prepared to respond quickly in an incident, reducing panic and inaction.
